Professional Summary

I am a student at Seattle Pacific University studying computer science. I wish to improve my skills at computer science and learn new things. Improving myself and the environment around me is a crucial aspect of my life. I want to be able to use my skills to help others and teach those who wish to learn. I'm passionate about my interests and I hope that I can share that passion with the people who are around me.

Work Experience

- Communication skills

Additional Information

I've volunteered at Seattle Children's Theatre. I am experienced at working with a team to coordinate events and have a clear schedule of when events happen and how to handle different situations. I've helped around at my church with children. I am good at supervising children and being patient and kind with them. I have skills in coding and enjoying teaching/learning anything related to computers or software. I volunteered at Fremont Abbey Arts Center. I worked with other members as a team to prepare activities and performances for participants and performers.
